[Lemoncode] Dani (to Everyone): 18:54: Buenas tardes
[Lemoncode] Dani (to Everyone): 18:55: Muy buenas Antonio
Marcos García F. (to Everyone): 18:58: Hola!
Marcos García F. (to Everyone): 18:59: bien con fuerzas jaja
Marcos García F. (to Everyone): 18:59: yo imposible no he parado
Antonio Contreras (to Everyone): 19:00: buenas Miguel
Miguel Ángel Vázquez Vera (to Everyone): 19:00: Hola :)
Miguel Ángel Vázquez Vera (to Everyone): 19:00: Vamos a tope!
Miguel Ángel Vázquez Vera (to Everyone): 19:00: Que ayer casi me da un ictus
Antonio Contreras (to Everyone): 19:00: jajaja
Marcos García F. (to Everyone): 19:00: jaja
Marcos García F. (to Everyone): 19:00: me quedé con una dudilla ayer
Marcos García F. (to Everyone): 19:01: no es posible que algún curioso pueda descubrir la ruta del jsom por la devtools?
Marcos García F. (to Everyone): 19:01: jsom
Marcos García F. (to Everyone): 19:01: si
Marcos García F. (to Everyone): 19:02: ajam
Marcos García F. (to Everyone): 19:02: vale
Marcos García F. (to Everyone): 19:02: ok ok
Miguel Ángel Vázquez Vera (to Everyone): 19:03: si
Amaia (to Everyone): 19:04: Buenas tardes a todos!
Oscar Moreno (to Everyone): 19:04: con arrancar el servidor con npm start es suficiente ahora no?
Oscar Moreno (to Everyone): 19:04: para seguir manos a la obra
Antonio Contreras (to Everyone): 19:04: aquí dejo Dani el firepad para compartir el código <https://demo.firepad.io/#lemoncode>
Miguel Ángel Vázquez Vera (to Everyone): 19:04: Gracias, Antonio
Antonio Contreras (to Everyone): 19:04: de nada!!1
Miguel Ángel Vázquez Vera (to Everyone): 19:08: sí
Oscar Moreno (to Everyone): 19:08: puedes repetir?
Oscar Moreno (to Everyone): 19:09: ah ok
Marcos García F. (to Everyone): 19:10: ok
Miguel Ángel Vázquez Vera (to Everyone): 19:12: sí
Oscar Moreno (to Everyone): 19:12: de momento ok
Miguel Ángel Vázquez Vera (to Everyone): 19:13: ok
Miguel Ángel Vázquez Vera (to Everyone): 19:13: sí
[Lemoncode] Dani (to Everyone): 19:13: admin@email.com
[Lemoncode] Dani (to Everyone): 19:14: test
Marcos García F. (to Everyone): 19:14: puedo un inciso?
Marcos García F. (to Everyone): 19:14: los elementos comunes de html como el footer o el nav no se inyectan de otra forma? por si sufren cambios
Marcos García F. (to Everyone): 19:15: eso
Marcos García F. (to Everyone): 19:15: pero sería posible no?
Marcos García F. (to Everyone): 19:15: ok!
Miguel Ángel Vázquez Vera (to Everyone): 19:17: tpl
Oscar Moreno (to Everyone): 19:17: tpl
Alba (to Everyone): 19:17: Perdón llego tarde
Alba (to Everyone): 19:17: Por dónde vamos?
Alba (to Everyone): 19:18: Muchas gracias!
[Lemoncode] Dani (to Everyone): 19:19: import { getAccountList } from './account-list.api';
Miguel Ángel Vázquez Vera (to Everyone): 19:20: tlp
Oscar Moreno (to Everyone): 19:20: tlp

Alba (to Everyone): 19:20: tlp
Marcos García F. (to Everyone): 19:20: tlp
[Lemoncode] Dani (to Everyone): 19:20: <https://demo.firepad.io/#lemoncode>
Miguel Ángel Vázquez Vera (to Everyone): 19:21: porque logeas dentro de { } ?
Miguel Ángel Vázquez Vera (to Everyone): 19:21: ahhh
Miguel Ángel Vázquez Vera (to Everyone): 19:21: que interesante
Miguel Ángel Vázquez Vera (to Everyone): 19:21: mola
Marcos García F. (to Everyone): 19:22: ok
Miguel Ángel Vázquez Vera (to Everyone): 19:22: pasa account.list
Miguel Ángel Vázquez Vera (to Everyone): 19:22: tengo un error
Miguel Ángel Vázquez Vera (to Everyone): 19:22: sí xfa
[Lemoncode] Dani (to Everyone): 19:22: import { getAccountList } from './account-list.api';

```
getAccountList().then(accountList => {  
  console.log({ accountList });  
});
```

Alba (to Everyone): 19:23: sale account-list
Miguel Ángel Vázquez Vera (to Everyone): 19:23: no
Miguel Ángel Vázquez Vera (to Everyone): 19:23: me sigue dando error
Alba (to Everyone): 19:23: sale
Iván (to Everyone): 19:24: a mi cada vez que le doy npm start me termina dando error

Miguel Ángel Vázquez Vera (to Everyone): 19:25: Gracias!

Iván (to Everyone): 19:28: gracias

[Lemoncode] Dani (to Everyone): 19:29: <https://github.com/typicode/json-server>

[Lemoncode] Dani (to Everyone): 19:31: import { getAccountList } from './account-list.api';

import { addAccountRows } from './account-list.helpers';

```
getAccountList().then(accountList => {  
  addAccountRows(accountList);  
});
```

Miguel Ángel Vázquez Vera (to Everyone): 19:31: sí

Marcos García F. (to Everyone): 19:31: wuay

Alba (to Everyone): 19:31: Sale

Oscar Moreno (to Everyone): 19:31: parece que si

Miguel Ángel Vázquez Vera (to Everyone): 19:32: tlp

Miguel Ángel Vázquez Vera (to Everyone): 19:35: tlp

[Lemoncode] Dani (to Everyone): 19:35: /*

```
Account {  
  id: string;  
  iban: string;  
  name: string;  
  balance: string; // number -> string €  
  "lastTransaction": string // string -> DD/MM/YYYY  
}  
*/
```

Manuel Larena Anchuela (to Everyone): 19:36: perdon, acabo de llegar y no se que habeis avanzado

Manuel Larena Anchuela (to Everyone): 19:36: muy buenas

Manuel Larena Anchuela (to Everyone): 19:36: si

Manuel Larena Anchuela (to Everyone): 19:37: ok

Manuel Larena Anchuela (to Everyone): 19:37: muchas gracias

Manuel Larena Anchuela (to Everyone): 19:37: vale

Manuel Larena Anchuela (to Everyone): 19:38: ok
[Lemoncode] Dani (to Everyone): 19:38: <https://demo.firepad.io/#lemoncode>
Manuel Larena Anchuela (to Everyone): 19:38: genial
Marcos García F. (to Everyone): 19:38: hay que modificar addAccountRows?
Marcos García F. (to Everyone): 19:39: ajam
[Lemoncode] Dani (to Everyone): 19:39: mapper
Miguel Ángel Vázquez Vera (to Everyone): 19:39: sí
Marcos García F. (to Everyone): 19:39: ok
Manuel Larena Anchuela (to Everyone): 19:39: si
[Lemoncode] Dani (to Everyone): 19:40: account-list.mappers.js
Miguel Ángel Vázquez Vera (to Everyone): 19:40: tpl
Manuel Larena Anchuela (to Everyone): 19:40: tpl
Oscar Moreno (to Everyone): 19:40: sip
Alba (to Everyone): 19:40: tpl
Amaia (to Everyone): 19:41: Me he tenido que ir nada mas empezar, entiendo que me habre perdido bastante no? ya me vere mañana el video y si tengo dudas te escribo Dani
Miguel Ángel Vázquez Vera (to Everyone): 19:41: View Model es similar a User Interface?
Manuel Larena Anchuela (to Everyone): 19:41: que es mas correcto?
Marcos García F. (to Everyone): 19:42: el largo
[Lemoncode] Dani (to Everyone): 19:42: <https://demo.firepad.io/#lemoncode>
Amaia (to Everyone): 19:43: vale, guay, lo hago
[Lemoncode] Dani (to Everyone): 19:43: account-list.mappers.js
Manuel Larena Anchuela (to Everyone): 19:43: ok, perfecto
Miguel Ángel Vázquez Vera (to Everyone): 19:44: sí
Manuel Larena Anchuela (to Everyone): 19:44: si
Alba (to Everyone): 19:44: sí
Amaia (to Everyone): 19:44: el codigo del firepad en que fichero va?
Amaia (to Everyone): 19:45: ok
Amaia (to Everyone): 19:45: gracias
[Lemoncode] Dani (to Everyone): 19:46: const mapAccountFromApiToViewModel
= () => {
 return {
 id: "",
 iban: "",
 name: "",
 balance: "",
 lastTransaction: "",
 };
};
Manuel Larena Anchuela (to Everyone): 19:46: si

[Lemoncode] Dani (to Everyone): 19:49: <https://date-fns.org/docs/Getting-Started>
Manuel Larena Anchuela (to Everyone): 19:49: si
[Lemoncode] Dani (to Everyone): 19:50: const mapAccountFromApiToViewModel
= account => {
 return {
 id: account.id,

```
iban: account.iban,  
name: account.name,  
balance: `${account.balance} €`,  
lastTransaction: new Date(account.lastTransaction).toLocaleDateString(),  
};  
};
```

Miguel Ángel Vázquez Vera (to Everyone): 19:50: tpl

Alba (to Everyone): 19:50: tpl

Marcos García F. (to Everyone): 19:50: ok

Amaia (to Everyone): 19:50: ok

Miguel Ángel Vázquez Vera (to Everyone): 19:52: un forEach()

Manuel Larena Anchuela (to Everyone): 19:52: un map?

Marcos García F. (to Everyone): 19:52: map()

Antonio Contreras (to Everyone): 19:52: muy bien!!!

Miguel Ángel Vázquez Vera (to Everyone): 19:52: pero map devuelve un array no?

Miguel Ángel Vázquez Vera (to Everyone): 19:53: Claro. Es verdad

Miguel Ángel Vázquez Vera (to Everyone): 19:54: sí

Miguel Ángel Vázquez Vera (to Everyone): 19:54: una pregunta

Miguel Ángel Vázquez Vera (to Everyone): 19:54: la función primera utiliza la segunda

Miguel Ángel Vázquez Vera (to Everyone): 19:54: en este caso, funciona por el tema del hoisting

Miguel Ángel Vázquez Vera (to Everyone): 19:55: pero no sería más ordenado colocarlas al revés?

Miguel Ángel Vázquez Vera (to Everyone): 19:55: quiero decir, cómo se suele hacer?

Manuel Larena Anchuela (to Everyone): 19:55: pero no es una clase

Manuel Larena Anchuela (to Everyone): 19:55: aqui si se puede

Manuel Larena Anchuela (to Everyone): 19:55: no?

Miguel Ángel Vázquez Vera (to Everyone): 19:55: sí, sé que se puede, pero pregunto qué es lo que suele hacerse a nivel profesional

Manuel Larena Anchuela (to Everyone): 19:55: ok

Miguel Ángel Vázquez Vera (to Everyone): 19:55: ok

Miguel Ángel Vázquez Vera (to Everyone): 19:56: sí

Miguel Ángel Vázquez Vera (to Everyone): 19:56: pero hazlo como tú lo hagas, Daniel

Miguel Ángel Vázquez Vera (to Everyone): 19:56: Es para saberlo :D

[Lemoncode] Dani (to Everyone): 19:57: import { getAccountList } from './account-list.api';

import { addAccountRows } from './account-list.helpers';

import { mapAccountListFromApiToViewModel } from './account-list.mappers';

```
getAccountList().then(accountList => {  
  const viewModelAccountList = mapAccountListFromApiToViewModel(accountList);  
  addAccountRows(viewModelAccountList);  
});
```

Miguel Ángel Vázquez Vera (to Everyone): 19:58: sí

Miguel Ángel Vázquez Vera (to Everyone): 19:58: todo ok

Oscar Moreno (to Everyone): 19:58: sip

Marcos García F. (to Everyone): 19:58: bien

Alba (to Everyone): 19:58: me da error

Manuel Larena Anchuela (to Everyone): 20:01: a mi me da un error

Amaia (to Everyone): 20:01: cual era el correo y el pass?

Amaia (to Everyone): 20:01: porque no me deja entrar

[Lemoncode] Dani (to Everyone): 20:01: admin@email.com
[Lemoncode] Dani (to Everyone): 20:01: test
Amaia (to Everyone): 20:02: ya esta
Amaia (to Everyone): 20:02: gracias!
Marcos García F. (to Everyone): 20:08: se hacen mucho estos mappers?
Marcos García F. (to Everyone): 20:09: ok
Miguel Ángel Vázquez Vera (to Everyone): 20:10: navega con hiperlinks?
Manuel Larena Anchuela (to Everyone): 20:11: si
Miguel Ángel Vázquez Vera (to Everyone): 20:11: ah, pero son dinámicos. ok

Marcos García F. (to Everyone): 20:33: ok
Oscar Moreno (to Everyone): 20:33: percto
Amaia (to Everyone): 20:34: ok
Miguel Ángel Vázquez Vera (to Everyone): 20:39: Hola
Oscar Moreno (to Everyone): 20:39: vuelta
Miguel Ángel Vázquez Vera (to Everyone): 20:39: Ya estamos de vuelta
Manuel Larena Anchuela (to Everyone): 20:39: buenas
[Lemoncode] Dani (to Everyone): 20:40: account.validations.js
Manuel Larena Anchuela (to Everyone): 20:43: no
[Lemoncode] Dani (to Everyone): 20:43: import { formValidation } from
'./account.validations';
Oscar Moreno (to Everyone): 20:44: llamar a la funcion de error?
Oscar Moreno (to Everyone): 20:44: si no es bueno
[Lemoncode] Dani (to Everyone): 20:45: import { onUpdateField, onSubmitForm,
onSetError } from '../common/helpers';
Manuel Larena Anchuela (to Everyone): 20:46: no se necesita el id en
onSetError?
Manuel Larena Anchuela (to Everyone): 20:46: el ID en onSetError
Manuel Larena Anchuela (to Everyone): 20:47: dena
Miguel Ángel Vázquez Vera (to Everyone): 20:48: no. un seg
Manuel Larena Anchuela (to Everyone): 20:48: si
Oscar Moreno (to Everyone): 20:48: me da un error
Oscar Moreno (to Everyone): 20:48: pero creo que por copiar de firepad
Marcos García F. (to Everyone): 20:48: el firepad esta bien?
Oscar Moreno (to Everyone): 20:48: un seg
Oscar Moreno (to Everyone): 20:48: es el firead
Oscar Moreno (to Everyone): 20:48: creo que se ha machacado
Oscar Moreno (to Everyone): 20:48: ok
Alba (to Everyone): 20:48: se me ha ido todo
Marcos García F. (to Everyone): 20:49: creo que si
Miguel Ángel Vázquez Vera (to Everyone): 20:49: no
Alba (to Everyone): 20:49: no hace falta
Alba (to Everyone): 20:49: ya está solucionado
Oscar Moreno (to Everyone): 20:49: parece que si
Alba (to Everyone): 20:49: Gracias
Miguel Ángel Vázquez Vera (to Everyone): 20:49: este error pasó ayer
Miguel Ángel Vázquez Vera (to Everyone): 20:51: Gracias
[Lemoncode] Dani (to Everyone): 20:52: import {
 onUpdateField,
 onSubmitForm,
 onSetError,
 onSetFormErrors,
} from '../common/helpers';
Miguel Ángel Vázquez Vera (to Everyone): 20:53: sí
Miguel Ángel Vázquez Vera (to Everyone): 20:53: tpl
Marcos García F. (to Everyone): 20:53: ok
Marcos García F. (to Everyone): 20:54: id no lo recogemos?
Manuel Larena Anchuela (to Everyone): 20:55: si
Marcos García F. (to Everyone): 20:55: ok
[Lemoncode] Dani (to Everyone): 20:55: const url = ` \$
{process.env.BASE_API_URL}/account`;
Marcos García F. (to Everyone): 20:59: fetch tiene put también no?

Marcos García F. (to Everyone): 20:59: vale
Marcos García F. (to Everyone): 21:01: mapper?
[Lemoncode] Dani (to Everyone): 21:02: account.mappers.js
Alba (to Everyone): 21:04: tpl
Miguel Ángel Vázquez Vera (to Everyone): 21:04: venga
Manuel Larena Anchuela (to Everyone): 21:04: tpl
Marcos García F. (to Everyone): 21:05: Tengo que salir lo siento, ya reviso
[Lemoncode] Dani (to Everyone): 21:08: const isEditMode = Boolean(params.id);
Miguel Ángel Vázquez Vera (to Everyone): 21:08: ese boolean()
Miguel Ángel Vázquez Vera (to Everyone): 21:08: no lo había visto hasta ahora
Miguel Ángel Vázquez Vera (to Everyone): 21:08: ok
Manuel Larena Anchuela (to Everyone): 21:09: y si preguntas por el no funciona igual?
Manuel Larena Anchuela (to Everyone): 21:09: con un terciario
Manuel Larena Anchuela (to Everyone): 21:09: eso
Manuel Larena Anchuela (to Everyone): 21:09: eso
Manuel Larena Anchuela (to Everyone): 21:09: si
Manuel Larena Anchuela (to Everyone): 21:09: ok
Miguel Ángel Vázquez Vera (to Everyone): 21:12: Yo es que no sé ya lo que entiendo y lo que no
Miguel Ángel Vázquez Vera (to Everyone): 21:12: pffff
Miguel Ángel Vázquez Vera (to Everyone): 21:13: Algunas cosas
Miguel Ángel Vázquez Vera (to Everyone): 21:13: pero es que no merece la pena
Miguel Ángel Vázquez Vera (to Everyone): 21:13: creo que voy a tener que encerrarme con el código mañana
Miguel Ángel Vázquez Vera (to Everyone): 21:13: y verlo todo
Miguel Ángel Vázquez Vera (to Everyone): 21:13: básicamente me he perdido desde el principio un poco
Miguel Ángel Vázquez Vera (to Everyone): 21:13: pero en torno a todo el código que ya estaba escrito
Miguel Ángel Vázquez Vera (to Everyone): 21:14: porque no he podido familiarizarme con e'l
Miguel Ángel Vázquez Vera (to Everyone): 21:14: A todo el código escrito previamente a las clases
Miguel Ángel Vázquez Vera (to Everyone): 21:14: De verdad
Miguel Ángel Vázquez Vera (to Everyone): 21:14: sigue, y no te preocupes
Miguel Ángel Vázquez Vera (to Everyone): 21:15: vale
Manuel Larena Anchuela (to Everyone): 21:15: si
Miguel Ángel Vázquez Vera (to Everyone): 21:15: tpl
Miguel Ángel Vázquez Vera (to Everyone): 21:16: sí

Oscar Moreno (to Everyone): 21:17: si
Manuel Larena Anchuela (to Everyone): 21:17: si
Miguel Ángel Vázquez Vera (to Everyone): 21:18: sí
Oscar Moreno (to Everyone): 21:19: si
Manuel Larena Anchuela (to Everyone): 21:19: si
Miguel Ángel Vázquez Vera (to Everyone): 21:20: funciona
Alba (to Everyone): 21:21: funciona
Miguel Ángel Vázquez Vera (to Everyone): 21:22: de qué tipo?
Miguel Ángel Vázquez Vera (to Everyone): 21:23: aham
Oscar Moreno (to Everyone): 21:23: mapper
Miguel Ángel Vázquez Vera (to Everyone): 21:23: mapear
Miguel Ángel Vázquez Vera (to Everyone): 21:24: ok
[Lemoncode] Dani (to Everyone): 21:24: import
{ mapAccountFromApiToViewModel, mapAccountFromViewModelToApi } from

./account.mappers';
[Lemoncode] Dani (to Everyone): 21:25: import { getAccount, updateAccount, insertAccount } from './account.api';
Manuel Larena Anchuela (to Everyone): 21:27: se ha borrado
Manuel Larena Anchuela (to Everyone): 21:27: gracias
Alba (to Everyone): 21:29: Me sale
Miguel Ángel Vázquez Vera (to Everyone): 21:29: sí
Alba (to Everyone): 21:29: se me ha ido el localhost
Oscar Moreno (to Everyone): 21:31: el nombr esta en el console.log
Oscar Moreno (to Everyone): 21:32: puede hacer un repaso de las funciones que traen esta nueva cuenta
Oscar Moreno (to Everyone): 21:32: muy rapido?
Oscar Moreno (to Everyone): 21:35: perfectoo
Manuel Larena Anchuela (to Everyone): 21:35: no
Manuel Larena Anchuela (to Everyone): 21:35: me da un error al actualizar
Manuel Larena Anchuela (to Everyone): 21:36: ok
Miguel Ángel Vázquez Vera (to Everyone): 21:39: si
Miguel Ángel Vázquez Vera (to Everyone): 21:40: ok
[Lemoncode] Dani (to Everyone): 21:41: history.back();
Manuel Larena Anchuela (to Everyone): 21:42: no, me he perdido
Manuel Larena Anchuela (to Everyone): 21:42: perdon
Alba (to Everyone): 21:42: no
Alba (to Everyone): 21:42: no me sale
Manuel Larena Anchuela (to Everyone): 21:43: ok
[Lemoncode] Dani (to Everyone): 21:43: history.back();
Oscar Moreno (to Everyone): 21:43: puedes pegar el codigo entero?
Oscar Moreno (to Everyone): 21:43: me da un pequeño error
Miguel Ángel Vázquez Vera (to Everyone): 21:44: a mí también me da error
Miguel Ángel Vázquez Vera (to Everyone): 21:48: sí
Miguel Ángel Vázquez Vera (to Everyone): 21:49: sí
Oscar Moreno (to Everyone): 21:49: funciona pero me pasa lo de antes
Miguel Ángel Vázquez Vera (to Everyone): 21:49: pero en lugar de utilizar el metodo history.back() deberíamos utilizar otro que actualice la página no?
Oscar Moreno (to Everyone): 21:49: tengo que actualizar
Manuel Larena Anchuela (to Everyone): 21:50: no me vuelve y no me actualiza
Miguel Ángel Vázquez Vera (to Everyone): 21:50: porque navegamos hacia atrás no?
Miguel Ángel Vázquez Vera (to Everyone): 21:51: mmm
Manuel Larena Anchuela (to Everyone): 21:52: no
Oscar Moreno (to Everyone): 21:52: voy a probar
Miguel Ángel Vázquez Vera (to Everyone): 21:52: sí me sale
Oscar Moreno (to Everyone): 21:53: correcto lo de la cache
Oscar Moreno (to Everyone): 21:56: puff
Manuel Larena Anchuela (to Everyone): 21:56: bien e intenso
Miguel Ángel Vázquez Vera (to Everyone): 21:56: pfff
Oscar Moreno (to Everyone): 21:56: mucho que procesar
Miguel Ángel Vázquez Vera (to Everyone): 21:56: jajaja
Alba (to Everyone): 21:56: Interesante y difícil
Manuel Larena Anchuela (to Everyone): 21:57: si
Manuel Larena Anchuela (to Everyone): 21:57: exacto
Oscar Moreno (to Everyone): 21:58: los movimientos son fijos?
Miguel Ángel Vázquez Vera (to Everyone): 21:58: ok
Oscar Moreno (to Everyone): 21:58: de un fichero de datos?
Oscar Moreno (to Everyone): 21:59: todo es una duda
Miguel Ángel Vázquez Vera (to Everyone): 21:59: La semana que viene te digo

Manuel Larena Anchuela (to Everyone): 22:00: ahora todas
Alba (to Everyone): 22:00: la semana que viene, sí XD
Manuel Larena Anchuela (to Everyone): 22:00: mañana mejor
Antonio Contreras (to Everyone): 22:00: jajja
Oscar Moreno (to Everyone): 22:00: eso
Miguel Ángel Vázquez Vera (to Everyone): 22:00: más vale
Miguel Ángel Vázquez Vera (to Everyone): 22:00: porque me acaba de pasar un
camión por encima
Miguel Ángel Vázquez Vera (to Everyone): 22:00: xD
Alba (to Everyone): 22:01: intensa
Oscar Moreno (to Everyone): 22:01: intensa
Miguel Ángel Vázquez Vera (to Everyone): 22:01: sí
Antonio Contreras (to Everyone): 22:01: jajaj
Manuel Larena Anchuela (to Everyone): 22:01: entretenida
Alba (to Everyone): 22:01: Pero gracias ^^
Manuel Larena Anchuela (to Everyone): 22:01: gracias
Miguel Ángel Vázquez Vera (to Everyone): 22:01: Gracias, Daniel
Alba (to Everyone): 22:01: Buen finde
Amaia (to Everyone): 22:01: hasta la semana que viene, gracias!
Miguel Ángel Vázquez Vera (to Everyone): 22:01: Buenas noches a todos
Antonio Contreras (to Everyone): 22:01: buenas noches
Oscar Moreno (to Everyone): 22:01: buen finde
Antonio Contreras (to Everyone): 22:01: buen finde
Manuel Larena Anchuela (to Everyone): 22:01: buen finde y buenas noches
