Antonio Contreras (to Everyone): 18:55: si
Marcos García F. (to Everyone): 18:55: alto y claro
Antonio Contreras (to Everyone): 19:00: buenas a todos
Miguel Ángel Vázquez Vera (to Everyone): 19:01: Muy buenas
Miguel Ángel Vázquez Vera (to Everyone): 19:01: Qué bueno verte por aquí otra vez, Daniel
Miguel Ángel Vázquez Vera (to Everyone): 19:01: sí
Antonio Contreras (to Everyone): 19:01: si
Miguel Ángel Vázquez Vera (to Everyone): 19:01: Todo genial
Marcos García F. (to Everyone): 19:02: muy bien todo!
Miguel Ángel Vázquez Vera (to Everyone): 19:02: Qué guay esto del banco, no?
Marcos García F. (to Everyone): 19:03: pinta bien
Miguel Ángel Vázquez Vera (to Everyone): 19:03: Probablemente
Miguel Ángel Vázquez Vera (to Everyone): 19:03: podemos esperar unos minutos si quieres
Miguel Ángel Vázquez Vera (to Everyone): 19:04: hecho
Amaia (to Everyone): 19:04: Buenas tardes
Marcos García F. (to Everyone): 19:07: si
Miguel Ángel Vázquez Vera (to Everyone): 19:07: tpl
Amaia (to Everyone): 19:07: si
Alba (to Everyone): 19:07: Sí
Miguel Ángel Vázquez Vera (to Everyone): 19:09: sí
Miguel Ángel Vázquez Vera (to Everyone): 19:09: si
Amaia (to Everyone): 19:09: si
Miguel Ángel Vázquez Vera (to Everyone): 19:09: tpl
Alba (to Everyone): 19:09: tpl
Oscar Moreno (to Everyone): 19:09: tpl
Marcos García F. (to Everyone): 19:09: ok
[Lemoncode] Dani (to Everyone): 19:10: npm install
Miguel Ángel Vázquez Vera (to Everyone): 19:10: la instala de forma local no?
Miguel Ángel Vázquez Vera (to Everyone): 19:13: sí. mola mucho
Oscar Moreno (to Everyone): 19:13: entenderse si
Oscar Moreno (to Everyone): 19:13: ahora habra que ver
Alba (to Everyone): 19:13: Lo que se pretende conseguir, sí
Alba (to Everyone): 19:13: Mola la app
Marcos García F. (to Everyone): 19:13: si completa
Alba (to Everyone): 19:13: a ver si la consigo igual XD
Amaia (to Everyone): 19:14: esta guay si, pero complicadilla
Miguel Ángel Vázquez Vera (to Everyone): 19:14: tpl
Oscar Moreno (to Everyone): 19:14: esta en ello
Marcos García F. (to Everyone): 19:14: ok
Miguel Ángel Vázquez Vera (to Everyone): 19:16: sí
Gema Pujalte Iglesias (to Everyone): 19:17: Buenas tardes,acabo de llegar..no quiero interrumpir pero cuando podais me explicais desde el principio porfa
[Lemoncode] Dani (to Everyone): 19:17: npm install
Gema Pujalte Iglesias (to Everyone): 19:18: voy a ello
Gema Pujalte Iglesias (to Everyone): 19:18: ok
Gema Pujalte Iglesias (to Everyone): 19:18: gracias
Marcos García F. (to Everyone): 19:19: Daniel, entiendo todo lo de similar el servidor pero nosotros como front solo consultariamos el data.jsom ¿?
Antonio Contreras (to Everyone): 19:19: exacto
Marcos García F. (to Everyone): 19:19: wuay
Miguel Ángel Vázquez Vera (to Everyone): 19:22: tpl

Miguel Ángel Vázquez Vera (to Everyone): 19:24: tpl
Alba (to Everyone): 19:24: Yo me pierdo buscando en mi carpeta xd
Antonio Contreras (to Everyone): 19:24: dudas ?
Alba (to Everyone): 19:24: Ahora sí
[Lemoncode] Dani (to Everyone): 19:25: Axios
Miguel Ángel Vázquez Vera (to Everyone): 19:26: sí, pero cómo se crea ese servidor?
Miguel Ángel Vázquez Vera (to Everyone): 19:26: sí, sí
Miguel Ángel Vázquez Vera (to Everyone): 19:26: vale
Oscar Moreno (to Everyone): 19:27: si
Miguel Ángel Vázquez Vera (to Everyone): 19:27: ahhhh, mola
Gema Pujalte Iglesias (to Everyone): 19:27: si
Oscar Moreno (to Everyone): 19:27: instalado
Marcos García F. (to Everyone): 19:27: creo que tengo ocultas esas variables
Marcos García F. (to Everyone): 19:27: no las veo
[Lemoncode] Dani (to Everyone): 19:28: http://localhost:1234/
Cristina (to Everyone): 19:28: sí
Gema Pujalte Iglesias (to Everyone): 19:28: si
Marcos García F. (to Everyone): 19:29: algo falla por aquí
Alba (to Everyone): 19:29: Sí
Miguel Ángel Vázquez Vera (to Everyone): 19:31: a mí me pasa igual
Miguel Ángel Vázquez Vera (to Everyone): 19:31: pero en vsc se ve
Miguel Ángel Vázquez Vera (to Everyone): 19:31: también tengo mac
Miguel Ángel Vázquez Vera (to Everyone): 19:31: no no
Miguel Ángel Vázquez Vera (to Everyone): 19:32: sí
Miguel Ángel Vázquez Vera (to Everyone): 19:32: era para Marcos
Miguel Ángel Vázquez Vera (to Everyone): 19:32: Que lo cargue en vsc toda la carpeta
Miguel Ángel Vázquez Vera (to Everyone): 19:32: y le carga los archivos
Oscar Moreno (to Everyone): 19:33: estaria bien tener un firepad abierto paa codigo grande
Oscar Moreno (to Everyone): 19:34: Gracias!
Alba (to Everyone): 19:34: Gracias
[Lemoncode] Dani (to Everyone): 19:34: https://demo.firepad.io/#banca-online
[Lemoncode] Dani (to Everyone): 19:34: console.log('login page');
Alba (to Everyone): 19:35: tpl

Antonio Contreras (to Everyone): 19:35: muy bien
[Lemoncode] Dani (to Everyone): 19:36: <script src="login.js"></script>
Miguel Ángel Vázquez Vera (to Everyone): 19:37: sí
Miguel Ángel Vázquez Vera (to Everyone): 19:37: pero hay que recargar para ver cambios?
Oscar Moreno (to Everyone): 19:37: right
Miguel Ángel Vázquez Vera (to Everyone): 19:37: no actualiza solo?
Amaia (to Everyone): 19:37: yo no veo nada en el navegador
Miguel Ángel Vázquez Vera (to Everyone): 19:37: Vale
Miguel Ángel Vázquez Vera (to Everyone): 19:37: entiendo
Gema Pujalte Iglesias (to Everyone): 19:37: ahora si
Amaia (to Everyone): 19:37: si
Gema Pujalte Iglesias (to Everyone): 19:37: no habia recargado
Amaia (to Everyone): 19:37: pero no se ve nada
Amaia (to Everyone): 19:38: creo que si
Amaia (to Everyone): 19:38: cierto

Amaia (to Everyone): 19:39: ok muchas gracias
Amaia (to Everyone): 19:39: gracias
[Lemoncode] Dani (to Everyone): 19:41: let login = {
  user: '',
  password: '',
};
[Lemoncode] Dani (to Everyone): 19:42: import { onUpdateField } from
'../../common/helpers';
Miguel Ángel Vázquez Vera (to Everyone): 19:42: ese import es de axxios o de
ES6?
Miguel Ángel Vázquez Vera (to Everyone): 19:43: ok
Miguel Ángel Vázquez Vera (to Everyone): 19:44: sí
Miguel Ángel Vázquez Vera (to Everyone): 19:44: key in
Miguel Ángel Vázquez Vera (to Everyone): 19:44: por ejemplo
Miguel Ángel Vázquez Vera (to Everyone): 19:46: tpl
Manuel Larena Anchuela (to Everyone): 19:46: si
Alba (to Everyone): 19:46: Puedes repetir porfa?
Alba (to Everyone): 19:46: El sonido!
Alba (to Everyone): 19:46: No oigo
Miguel Ángel Vázquez Vera (to Everyone): 19:46: me ha petado
Miguel Ángel Vázquez Vera (to Everyone): 19:46: ahora
Miguel Ángel Vázquez Vera (to Everyone): 19:46: sí
Antonio Contreras (to Everyone): 19:46: si si
Oscar Moreno (to Everyone): 19:46: ahora si
Alba (to Everyone): 19:46: Ahora sí
Antonio Contreras (to Everyone): 19:47: se ha ido el sonido
Manuel Larena Anchuela (to Everyone): 19:47: si, ahora si
Alba (to Everyone): 19:48: Ya veo
Alba (to Everyone): 19:48: Gracias
Miguel Ángel Vázquez Vera (to Everyone): 19:48: target es un metodo del objeto
event?
Miguel Ángel Vázquez Vera (to Everyone): 19:48: vale
Manuel Larena Anchuela (to Everyone): 19:49: no pillo la pregunta
Oscar Moreno (to Everyone): 19:49: login.user = value
Alba (to Everyone): 19:49: Se te oye bajito!
Miguel Ángel Vázquez Vera (to Everyone): 19:50: login.user = value
Manuel Larena Anchuela (to Everyone): 19:50: eso
Antonio Contreras (to Everyone): 19:50: muy bien oscar miguel
Miguel Ángel Vázquez Vera (to Everyone): 19:50: sí
Miguel Ángel Vázquez Vera (to Everyone): 19:50: . . .
Manuel Larena Anchuela (to Everyone): 19:50: si
Miguel Ángel Vázquez Vera (to Everyone): 19:51: eso crea una copia nueva o
no?
Miguel Ángel Vázquez Vera (to Everyone): 19:52: yo lo que no veo es el vento
del teclado
Miguel Ángel Vázquez Vera (to Everyone): 19:52: evento
Miguel Ángel Vázquez Vera (to Everyone): 19:53: A medias
Miguel Ángel Vázquez Vera (to Everyone): 19:53: pero sigue
Manuel Larena Anchuela (to Everyone): 19:53: si
Marcos García F. (to Everyone): 19:54: que va ahí algo que no va creo que es el
server
Miguel Ángel Vázquez Vera (to Everyone): 19:56: cuando es local no debe ser
necesario sudo
Miguel Ángel Vázquez Vera (to Everyone): 19:57: dónde tienes la carpeta del
proyecto, Marcos?

Miguel Ángel Vázquez Vera (to Everyone): 19:59: guardarlo, pero si haces spread creas otro objeto no?
Miguel Ángel Vázquez Vera (to Everyone): 20:00: pero no entiendo ahora mismo la utilidad de ir creando nuevos objetos
Miguel Ángel Vázquez Vera (to Everyone): 20:01: ah, vale
Miguel Ángel Vázquez Vera (to Everyone): 20:01: no, como tú quieras
Miguel Ángel Vázquez Vera (to Everyone): 20:01: sólo quería saber por qué
Oscar Moreno (to Everyone): 20:01: mejor acostumbrarse
Oscar Moreno (to Everyone): 20:01: a como se trabaja actualmente
Oscar Moreno (to Everyone): 20:02: deja un anexo en el slack espues para ver como seria de la otra forma
Miguel Ángel Vázquez Vera (to Everyone): 20:03: sí
Manuel Larena Anchuela (to Everyone): 20:03: si
Alba (to Everyone): 20:03: tpl

Antonio Contreras (to Everyone): 21:06: dudas
Antonio Contreras (to Everyone): 21:06: ?
Miguel Ángel Vázquez Vera (to Everyone): 21:07: tpl
Manuel Larena Anchuela (to Everyone): 21:07: si
Alba (to Everyone): 21:07: Por ahora, bien
[Lemoncode] Dani (to Everyone): 21:08: import { onUpdateField, onSubmitForm, onSetError } from '../../common/helpers';
Gema Pujalte Iglesias (to Everyone): 21:09: si por fa que me he perdido
Amaia (to Everyone): 21:10: si
Marcos García F. (to Everyone): 21:10: si
Alba (to Everyone): 21:10: Sí
Amaia (to Everyone): 21:10: todo ok
Oscar Moreno (to Everyone): 21:10: tengo que arrancar de nuevo
Oscar Moreno (to Everyone): 21:10: el servidor
Marcos García F. (to Everyone): 21:10: el asíncrono del formulario me pierdo un poco
Cristina (to Everyone): 21:10: a mí no me sale
Marcos García F. (to Everyone): 21:10: como sería síncrono?
Amaia (to Everyone): 21:10: aunk me sale una linea en amarillo en la terminal
Amaia (to Everyone): 21:11: vale
Antonio Contreras (to Everyone): 21:14: validatons
Cristina (to Everyone): 21:14: ah sí tiene que ser eso
Cristina (to Everyone): 21:14: no tengo micro
Manuel Larena Anchuela (to Everyone): 21:14: si
Gema Pujalte Iglesias (to Everyone): 21:15: me falta el export
Oscar Moreno (to Everyone): 21:15: me pasa lo mismo que al compi ntes
Oscar Moreno (to Everyone): 21:15: que parece que el css no lo carga
Gema Pujalte Iglesias (to Everyone): 21:15: como era?
Gema Pujalte Iglesias (to Everyone): 21:15: si

Gema Pujalte Iglesias (to Everyone): 21:15: eso
Oscar Moreno (to Everyone): 21:15: se me queda como sin css
Miguel Ángel Vázquez Vera (to Everyone): 21:16: pasa por firepad login.js por favor
Marcos García F. (to Everyone): 21:22: ajam!!
Marcos García F. (to Everyone): 21:23: si si
Marcos García F. (to Everyone): 21:23: muy bien
Marcos García F. (to Everyone): 21:23: si!
[Lemoncode] Dani (to Everyone): 21:27: import { onUpdateField, onSubmitForm, onSetError, onSetFormErrors } from '../../common/helpers';
Marcos García F. (to Everyone): 21:29: succeeded ¿dónde sale?
Marcos García F. (to Everyone): 21:29: OK!
Miguel Ángel Vázquez Vera (to Everyone): 21:30: sí
Manuel Larena Anchuela (to Everyone): 21:30: si
Oscar Moreno (to Everyone): 21:30: si mandamos el formulario
Oscar Moreno (to Everyone): 21:30: deberia salir ya el erro
Oscar Moreno (to Everyone): 21:30: de formulario?
Oscar Moreno (to Everyone): 21:31: sip
Marcos García F. (to Everyone): 21:33: muy currado
Miguel Ángel Vázquez Vera (to Everyone): 21:33: tpl
[Lemoncode] Dani (to Everyone): 21:35: import { history, routes } from '../../core/router';

  }
};
Antonio Contreras (to Everyone): 21:37: dudas ?
Miguel Ángel Vázquez Vera (to Everyone): 21:38: funciona
Marcos García F. (to Everyone): 21:38: ok
Miguel Ángel Vázquez Vera (to Everyone): 21:38: sale
Cristina (to Everyone): 21:38: sí
Miguel Ángel Vázquez Vera (to Everyone): 21:38: pero no veas
Marcos García F. (to Everyone): 21:38: perfect
Alba (to Everyone): 21:39: puedes pasar el correo y clave?
Oscar Moreno (to Everyone): 21:39: cual es el password
Oscar Moreno (to Everyone): 21:39: ?
Miguel Ángel Vázquez Vera (to Everyone): 21:39: tengo la cabeza que me va a reventar
Alba (to Everyone): 21:39: para ver si funciona
Amaia (to Everyone): 21:39: si, funciona
[Lemoncode] Dani (to Everyone): 21:39: admin@email.com
[Lemoncode] Dani (to Everyone): 21:39: test
Oscar Moreno (to Everyone): 21:39: soy el señor juan lopez
Alba (to Everyone): 21:39: funciona!
Oscar Moreno (to Everyone): 21:39: pero funcion
Miguel Ángel Vázquez Vera (to Everyone): 21:40: se entiende más o menos
Miguel Ángel Vázquez Vera (to Everyone): 21:40: es que hay mucho código
Manuel Larena Anchuela (to Everyone): 21:40: si
Amaia (to Everyone): 21:40: mas o menos
Miguel Ángel Vázquez Vera (to Everyone): 21:40: yo necesito echarle un vistazo tranquilamente
Oscar Moreno (to Everyone): 21:40: genial
Oscar Moreno (to Everyone): 21:40: si, estaria bien ver todos los cambios
Amaia (to Everyone): 21:40: si, estaria muy bien

Miguel Ángel Vázquez Vera (to Everyone): 21:40: genial
Manuel Larena Anchuela (to Everyone): 21:42: ok
Miguel Ángel Vázquez Vera (to Everyone): 21:42: en los laboratorios de estos módulos no hay prácticaS?
Manuel Larena Anchuela (to Everyone): 21:42: genial
Miguel Ángel Vázquez Vera (to Everyone): 21:42: ok
Amaia (to Everyone): 21:43: y con el siguiente tema tambien se va a hacer asi?
Amaia (to Everyone): 21:43: vale, y no hay nada mas k eso? con esto se terminaria?
Amaia (to Everyone): 21:44: vale, perfecto, gracias
Miguel Ángel Vázquez Vera (to Everyone): 21:45: tpl
Marcos García F. (to Everyone): 21:45: si
Manuel Larena Anchuela (to Everyone): 21:45: so
Oscar Moreno (to Everyone): 21:45: sip
Oscar Moreno (to Everyone): 21:45: tpl
Manuel Larena Anchuela (to Everyone): 21:48: si
Miguel Ángel Vázquez Vera (to Everyone): 21:48: sí
Alba (to Everyone): 21:48: sí
Marcos García F. (to Everyone): 21:48: el jsom es como php no se ve no?
Marcos García F. (to Everyone): 21:48: si sabes la ruta vamos
Marcos García F. (to Everyone): 21:49: ah vale
Miguel Ángel Vázquez Vera (to Everyone): 21:51: sí
Manuel Larena Anchuela (to Everyone): 21:51: si
[Lemoncode] Dani (to Everyone): 21:51: account-list.js
[Lemoncode] Dani (to Everyone): 21:52: console.log('account-list page');
Amaia (to Everyone): 21:52: con el script
Miguel Ángel Vázquez Vera (to Everyone): 21:52: importandolo al login.js
Miguel Ángel Vázquez Vera (to Everyone): 21:52: eso
[Lemoncode] Dani (to Everyone): 21:53: <script src="account-list.js"></script>
Amaia (to Everyone): 21:53: si
Manuel Larena Anchuela (to Everyone): 21:53: si
Marcos García F. (to Everyone): 21:53: ok
Alba (to Everyone): 21:53: sí
Oscar Moreno (to Everyone): 21:54: yes
Manuel Larena Anchuela (to Everyone): 21:54: con Axios?
Miguel Ángel Vázquez Vera (to Everyone): 21:54: yo tengo un lío de nombres ya...
Miguel Ángel Vázquez Vera (to Everyone): 21:55: sí
Manuel Larena Anchuela (to Everyone): 21:55: si
[Lemoncode] Dani (to Everyone): 21:56: import Axios from 'axios';

const url = `${process.env.BASE_API_URL}/account-list`;
Oscar Moreno (to Everyone): 21:56: no hay que poner alfinal .html?
Oscar Moreno (to Everyone): 21:59: con las bbdd de caliente como se haria
Alba (to Everyone): 21:59: sí
Miguel Ángel Vázquez Vera (to Everyone): 22:00: con otras APIs tendríamos que transforma antes los datos en un objeto con .json() no? aquí no hace falta porque lo habéis montado para que no sea necesario?
Miguel Ángel Vázquez Vera (to Everyone): 22:01: ok
Alba (to Everyone): 22:01: Muchas gracias!
Alba (to Everyone): 22:02: Buenas noches ^^
Manuel Larena Anchuela (to Everyone): 22:02: perfecto, muchas gracias
Miguel Ángel Vázquez Vera (to Everyone): 22:02: Una locura
Miguel Ángel Vázquez Vera (to Everyone): 22:02: xD
Miguel Ángel Vázquez Vera (to Everyone): 22:02: pero mola

Alba (to Everyone): 22:02: intensa xd
Oscar Moreno (to Everyone): 22:02: intensa
Marcos García F. (to Everyone): 22:02: muy bien!
Manuel Larena Anchuela (to Everyone): 22:02: mola pero no a estas horas
Miguel Ángel Vázquez Vera (to Everyone): 22:02: jaja, eso
Amaia (to Everyone): 22:02: lioso, pero bien, muchas gracias
Antonio Contreras (to Everyone): 22:02: jajaja
Miguel Ángel Vázquez Vera (to Everyone): 22:02: buenas noches
Oscar Moreno (to Everyone): 22:02: ok, muchas gracias!
Miguel Ángel Vázquez Vera (to Everyone): 22:02: gracias!
Manuel Larena Anchuela (to Everyone): 22:02: mañana mas
Marcos García F. (to Everyone): 22:02: hasta mañana
Antonio Contreras (to Everyone): 22:02: buenas noches
Manuel Larena Anchuela (to Everyone): 22:02: hasta mañana
